

**Student Athletics Grades 5-8**

**2017-2018**

June 2017

Dear Parents,

As our school year ends, we end with the beginning in mind! We are always striving for best practices in every area of our Academy. In the area of Athletics, we continue to seek polices and protocols that will support safety as well as develop our students' skill sets, sense of teamwork and enjoyment of a sport.

In order for a student to participate in a Junior Varsity or Varsity sport at any time during the school year, as a matter of personal safety and prudent protocol, the following must be in place:

- A current (Starting date of June 1, 2016) sports physical or complete physical examination
- An Athletic Program Emergency Information form
- An Athletic Agreement form
- A Baseline Concussion test: This will be administered here in the Academy
- A student who does not have these important documentations when a sport's season begins with practices will not be permitted to participate.

All of the documents mentioned above can be accessed on our website.

Go to: [www.staloysiusacademy.org](http://www.staloysiusacademy.org) {**Student Life** tab –Athletics link or **Parents** tab – Forms/Downloads}. You can also access and review our ***Athletic Program Handbook*** at the Athletics link.

Your cooperation is an essential in our strong partnership on behalf of our students.

If you have any questions, please contact Mr. Christopher Cooney, our Athletic Director:
